

The U.S. Environmental Protection Agency has completed the cleanup of the former Tuchman Cleaners at 4401 N. Keystone Avenue.

However, after conducting further testing, EPA has found chemicals from Tuchman in the air in some of your neighbors' homes at levels that could cause health effects.

To get your home tested for free, please contact Shelly Lam, On-Scene Coordinator, by March 31, 2013 at:

Lam.Shelly@epa.gov or 317-417-0980.

If you live in the neighborhood bounded by Duke Street, Keystone Avenue, East 42nd Street, and Crittenden Avenue (*the shaded area in the above map*), you can get your home tested for free.
